ABOUT ME

A multidisciplinary design student specializing in humanizing technology through UI/UX, web development, and 3D environments. Passionate about crafting visually engaging, human-centric solutions

EXPERIENCE

Aarna Foundation — Design Intern

Web Design & Architecture: Designed and developed two comprehensive web projects, including a complete structural redesign of the primary Aarna Foundation website and the creation of a new, user-friendly website for their educational initiative, ABC Little Preschool.

Branding & Graphic Design: Executed multiple visual communication deliverables by designing cohesive logos, a comprehensive informational booklet, promotional posters, and banners to drive the NGO's audience engagement and brand consistency.
